

Find our users and Ambassadors at the ACS March Meeting in Indianapolis

All-MIP Session

March 29 8:00am - 12:00pm

Grand 2 (The Westin Indianapolis)

3820049	NSF BioPACIFIC MIP Javier Read de Alaniz (UCSB)
3826743	Degradable polymers derived from bioderived monomers Heather Maynard (UCLA)
3825384	Sequence controlled peptides for application as photoresists Florian Kafer (Cornell)
3826851	Development and application of high-throughput synthesis and characterization procedures in polymer research Craig Hawker (UCSB)

Other BioPACIFIC MIP related talks and posters

3825887	Designing sustainable pressure-sensitive adhesives Kaitlin Albanese (UCSB) March 27, 2:00pm
3817196	Dynamic bottlebrush elastomers Christopher Bates (UCSB) March 29, 2:20pm
3827859	Incorporation of sprayable supramolecular polymers into the ReCell device for enhanced tissue regeneration following skin injury Penelope Jankoski (USM) March 28, 7:00pm (Poster)
